

# Ministry & The Work of God: 10

## A Good Job Well Done

### **Nehemiah 6.15-7.3**

The walls were completed in just 52 days.

This could have only been done by the hand of God.

Even though the enemies of God and Nehemiah were very disheartened, they had to agree that this work was done by God (v16)

### Lessons:

1. We must be quick to give God all the praise - It is His work. The Bible tells us that God chooses the weak and foolish to work through so that He gets the glory and praise (1 Corinthians 1.26-31)
2. It is His work - we must be careful to make sure we hear from God and follow His leading and plans. Our labour is in vain unless God is the architect and master builder of the work (Psalm 127.1)

### Phase 2 of Nehemiah's building project

- restoration of worship and the spiritual state of God's people.
- more important than the physical structure of the walls.
